To Whom It May Concern:

This letter is to recommend Cornell Horn, D.M., Wellness, Redemption, & Rehabilitation Program, Inc. (WRRP) to become an Employment Network.

Since July 2010 Dr. Horn has been providing clients of the State of Nevada's Bureau of Vocational Rehabilitation (VR) program with job placement services in accordance with a Job Developer/Placement services agreement. It is an open-ended agreement contingent upon the quality of services he provides our program, valid business licensing and up-to-date liability insurance.

Dr. Horn currently works with nine (9) Southern Nevada VR counselors in providing services to our clients residing within Clark and Nye counties; remuneration to him totals in excess of \$35,000. At this time he is actively working with approximately 34 VR clients, 8 of whom are Ticket Holders. To date Dr. Horn has successfully placed 18 VR clients; four would be considered to be in Phase-1/Milestone-1, one of which is a Ticket Holder and three would be considered to be in Phase-1/Milestone 2. Four of the placed clients currently meet Substantial Gainful Activity (SGA).

His placements have included: administrative services manager at the University of Nevada-Las Vegas, a protective service worker for Trinity Security, a watch guard for QI Security Services, a hairdresser/stylist for Riviera Hotel & Casino, a truck driver for CR England Inc., a counter rental clerk for Polaris Clothing, a carpet installer for West Hacienda Master Craft Flooring, a taxi driver for Lucky Cab Co., and other various service worker positions.

If you need any further information please don't hesitate to contact me. Thank you.

Sincerely,

Jill Martin  
Management Analyst I  
Rehabilitation Division
